LIFT-AWAY™

Attach any of the specialised cleaning accessories to handle or wand.

Empty dustcup after each use

Wash filters every month.
 Rinse pre-motor filters and allow to air dry completely. Tap loose dirt from pre-motor filters as needed between washes. Note: The filters may discolour over time. This is normal.

Rinse post-motor filter and allow to air dry completely for 24 hours. Tap loose dirt from post-motor filter as needed between washes. Note: DO NOT put the filter in the washing machine or dishwasher.

Congratulations!

Thank you for choosing Shark® Lift-Away™ NV350- the solution to help make vacuuming faster, easier and cleaner.

- ✓ Anti-Allergen Complete Seal Technology
- ✓ Enhanced Swivel Steering for easy manoeuvrability

Did you know?

Even low levels of particle pollution can cause coughing and wheezing and put children, teens and seniors at risk for things like asthma. Only a completely sealed system like the Shark® Lift-Away™ prevents dust and allergens from escaping back into the air.
